BIOLOGY/TEACHING (B.S.)

DEPARTMENT OF BIOLOGICAL SCIENCES
COLLEGE OF ARTS & SCIENCES
EASTERN KENTUCKY UNIVERSITY

Biology/Teaching at EKU

The Department of Biological Sciences' undergraduate curricula provide the student preparing to teach with a solid foundation in the fundamentals of biology. Students gain a firm grounding in both laboratory-based and field biology. In addition to the full array of biology classes and supporting courses in mathematics, chemistry, and physics, students take classes offered by the College of Education that prepare them for biology teaching. These courses are designed to organize, plan, present and evaluate the learning of biology subject content. EKU prepares a significant number of biology teachers in the Commonwealth and students are well prepared to take on this important career.

Class sizes in the Department of Biological Sciences are small and there is frequent interaction with the faculty. Facilities for teaching and research are available both on and off campus. Laboratory experiences are an essential component of virtually all courses, so students gain practical as well as theoretical knowledge. Opportunities exist for field experiences throughout Kentucky, neighboring states, and even abroad. If you are looking for a biology program where faculty place a high priority on both teaching and research, and getting students involved, EKU is the place!

Careers in Biology/Teaching

The careers for which biology students prepare themselves are quite diverse. Nationwide, about 10 percent of biology majors go on to graduate school in biology and other sciences, and about 20 percent go on to medical school. A small but significant fraction of students become teachers in elementary and secondary schools. Others take jobs as biologists in industry, government, the nonprofit sector, law, journalism, and many other professions. Biology at EKU provides the educational breadth to pursue these opportunities.

Degree Programs

The Department of Biological Sciences offers the Bachelor of Science degree in Biology - Teaching for students who wish to become middle or high school biology teachers. The department also offers the B.S. degree in Biology, Environmental Studies, and Wildlife Management, pre-professional curricula in Pre-Medicine/Pre-Dentistry, Pre-Veterinary Medicine, and Pre-Forestry, and a minor in Biology. At the graduate level, the department offers the Master of Science in Biology, with an option available in Applied Ecology.

Eastern Kentucky University

As you consider where you'll pursue your studies, Eastern Kentucky University encourages you to ask yourself, "What do I want to do with my life?" and "Who can help me reach that destination?"

Before we tell you about EKU, let's focus on your needs. What are you looking for in a college or university?

- Renowned, accessible professors; low student/faculty ratio
- State-of-the-art facilities
- Extensive curriculum
- Wide network of campus organizations
- Affordable cost
- Inviting campus

Achieving your goals depends on the quality of the faculty and curriculum at the school you choose to attend. Every college and university touts facilities, but few can match the accolades of our faculty. At EKU you'll reach beyond the borders of classroom discussion to hands-on experience and networking opportunities with experts in the field.

EKU graduates are world leaders in areas as diverse as international business and homeland security; local, state and national government; as well as drama and law. Campus facilities, such as the Studio for Academic Creativity, which is designed to enhance research, writing, and presentation skills, and our new state-of-the-art science building, ensure our students of exposure to technologies vital to real world success.

We hope you'll see that from our view there are no limitations, just possibilities.

- A comprehensive, public university serving more than 16,000 students
- Undergraduate and graduate excellence through 168 associate, baccalaureate, master's, specialist and cooperative doctoral programs
- Quality and diversity in faculty and staff
- Student/professor ratio of 17:1
- 66-acre main campus in Richmond, regional campuses in Corbin, Danville, Lancaster and Manchester, and higher education centers throughout the Commonwealth

Biology/Teaching (B.S.)

Refer to the College of Education section of this *Catalog* regarding several teacher certification requirements associated with this degree program.

Major Requirements 35-36 hours
BIO 121, 131, 141, 315, 316, 320; 328 or 348; 490, 514, one biology elective at the 300-500 level. Strongly recommended: completion of a minor.

Supporting Course Requirements 33-37 hours
CHE 111, 115, 112, 116 or 116H, 361, 366; 362 and 367, or 330; CSC 104; MAT 107 or 109 or 124* or 261*; PHY 131; PHY 132 or GLY 108; STA 215 or STA 270.

Professional Education Requirements 31 hours
EDF 103, 203, 319, 413, SED 401, ESE 441, 498, 499.

General Education Requirements 30 hours
Standard General Education program, excluding blocks II, IVA, IVB, VII (QS), and VIII (6 hours). Refer to Section Four of the EKU *Catalog* for details on the General Education and University requirements.

University Requirement 1 hour
ASO 100.

Total Curriculum Requirements 130-135 hours

* A preparatory course in mathematics (MAT 109) may be required before admission to calculus.

MINOR IN BIOLOGY

A student may qualify for a minor in biology by completing 21 semester hours to include BIO 121, 131, 141, and nine additional hours selected from those 300 through 500 level courses normally taken for one of the majors in the department. Students may also seek a minor in biology in conjunction with the completion of a teaching certificate, which will qualify them to teach biology at the secondary level. Teacher certification with a minor in biology requires the same 21 semester hours of course work stipulated in the above paragraph.

BIOLOGY COURSES

BIO 121	Principles of Biology
BIO 131	General Botany
BIO 141	General Zoology
BIO 315	Genetics
BIO 316	Ecology
BIO 320	Principles of Microbiology
BIO 328	Plant Physiology
BIO 348	Animal Physiology
BIO 490	Seminar
BIO 514	Evolution

OTHER COURSES

CHE 111	General Chemistry I
CHE 112	General Chemistry II
CHE 115	General Chemistry Lab I
CHE 116	General Chemistry Lab II
CHE 116H	General Chemistry Honors Lab II
CHE 361	Organic Chemistry I
CHE 362	Organic Chemistry II
CHE 366	Organic Chemistry Lab I
CHE 367	Organic Chemistry Lab II
CSC 104	Computer Literacy with Software Applications
EDF 103	Introduction to Education
EDF 203	Schooling and Society
EDF 319	Human Development and Learning
EDF 413	Assessment in Education
ESE 490	Secondary Curriculum, Classroom Organization, and Management
ESE 499	Supervised Student Teaching in the Secondary School
ESE 561	Teaching Science in the Secondary School
GLY 108	Plate Tectonics: The Active Earth
MAT 107	College Algebra
MAT 109	Precalculus Mathematics
MAT 124	Calculus I
MAT 261	Calculus with Applications for Science
PHY 131	College Physics I
PHY 132	College Physics II
SED 401	Exceptional Learners in Inclusive Classrooms
STA 215	Elementary Probability and Statistics
STA 270	Applied Statistics I
